

2010 Community Health Survey

<https://www.surveymonkey.com/s/JCCHAT>

The Jackson County **2010 Community Health Survey** is currently underway!

Your participation in the **2010 Community Health Survey** is vital to building healthy environments for our children and families. Did you know:

- By completing and returning your survey you are participating in gathering important **local** health information that can be used to write grants that will enhance our schools, neighborhoods and communities?
- Every year, the federal government distributes millions of dollars to tribal, state, and local governments based not only on census data but also on local health data.
- Community Health survey data can help guide local planning decisions which may impact local services, programs and other opportunities?
